

## **Agenda**

Shady Cove Recreation & Tourism Commission Workshop with Meeting to immediately follow if necessary

Little Monkeys, Shady Cove

Tuesday, April 15, 2025

5:15 PM

### **I. Call to Order**

- A. Roll Call
- B. Announcements by Presiding Officer

1. This meeting is being digitally recorded.
2. The next regularly scheduled meeting of the Recreation & Tourism Commission will be dependent upon today's workshop/meeting and announced at the end of this workshop/meeting.
3. Public may comment on agenda items. Public must state name and city of residence to discuss an issue. Issues must have a City-wide impact and not be personal issues.

### **II. City Liaison & Commission Reports**

### **III. Old Business**

None

### **IV. New Business**

- A. Welcome Signage – Discuss material production options
- B. May 26<sup>th</sup> Flag Raising – Items to address
- C. Summer Bash Update
- D. Event Flyers – Brochures – Updates
- E. Next Workshop or Meeting date

### **V. Commissioner Comments**

### **Adjournment**

**If a motion is required as a result of discussions, a Recreation & Tourism Commission Meeting will immediately follow.**

Below are two options for the front side (Welcome) and two options for the back side (Leaving) designs. These designs are the preferred designs of the Recreation and Tourism Commissioners who were present for the scheduled work session on April 9<sup>th</sup>, 2025.

**WELCOME DESIGNS:**

**OPTION 2: (Preferred)**

With “Welcome to” text

**OPTION 1:**

Without “Welcome to” text

**LEAVING DESIGNS:**

**OPTION 2: (Preferred)**

Leaving Shady Cove

**OPTION 1:**

See you Soon

# PRODUCTION

During my research, I came across a company called Art Sign Works that has produced a variety of indoor and outdoor signage including city welcome signs like the one in Coos Bay, Oregon. Here's some information from their website:

"We make custom carved 2.5-D, 3-D and engraved dimensional signs and plaques. These are fabricated from High-Density-Urethane (HDU) wood composite; extremely tough engraved High-density Color-Core Polyethelene (HDPE); wood (cedar, redwood, mahogany, oak, maple, cherry; metal-coated HDU (brass, bronze, copper, silver-nickel, stainless steel, and aluminum; and gold- and silver-leaf gilded HDU. Text, numbers, logos, art and borders can be higher than the background or engraved (carved into it), or both.

OUR SIGNS HAVE LONG LIFE & MINIMAL MAINTENANCE. We use the very best materials and manufacturing processes to create signs which have a very long life (20+ years for HDU Signs) and require very little maintenance. We provide a warranty of 2 years, and we expect our HDU and indoor wood signs to last for several decades. We use exclusively Ultra Low VOC Matthews automotive-type 2-part polyurethane acrylic paint and clear-coats, which are UV and graffiti resistance, so there is very little fading when the sign is exposed to direct sunlight, and graffiti can usually be cleaned off with acetone. Matthews paints cost \$200/gallon, compared to house paints which cost \$30/gallon that most other sign companies use. Matthews MAP will last 20 years or more before repainting. We use 1-Shot Low VOC Oil-Based High Gloss Lettering Enamels for text and artwork. 1Shot is simply the best (and most expensive) lettering enamel in the world. It costs \$250/gallon."

Entrance Sign for the City of Coos Bay, Oregon

We made two of these very large (12 ft high) entrance signs for the City of Coos Bay, Oregon. They were carved in 3-D relief from 20 lb/ft<sup>3</sup> High-Density-Urethane (HDU). The sign was prime coated and painted with Matthews and 1-Shot sign enamels, using an airbrush and artist brush. The entire sign was then coated with 2 coats of long-lasting Matthews polyurethane acrylic clear. This plaque will last over a decade in the marine climate without the paint fading.
